What is MUN?

- ❑ Model UN is a simulation of the United Nations and other delegative bodies
- ❑ You play the role of a delegate, where you must represent a position and argue in its favor
- ❑ There are 2 major types of competitions:
 - ❑ General Assemblies
 - ❑ Crisis Committees

General Assemblies

- ❑ You **represent** a delegate from a country
- ❑ **Relates** to modern day issues
- ❑ **Requires** cooperation between delegates
- ❑ Is **solution-based**

Crisis Committees

- ❑ You **represent** a character from either a historical or fictional setting
- ❑ **Relates** to fiction or historical events
- ❑ **Requires** improvisational skills
- ❑ Is **action-based**

What We Do

- ❑ **We educate** members on competition procedures
- ❑ **We help** members find their strengths
- ❑ **We teach** members how to research their positions
- ❑ **We guide** members on how to present their ideas
- ❑ **We give** members insight into real world topics

This Year's Competitions

Prompt: Meeting of the General Assembly (UNHCR)

Attention Delegates! Welcome to the general assembly of the United Nations. We have gathered here to discuss the ongoing refugee crisis caused by the Russo-Ukrainian war. Each group will craft a speech based upon the information below.

Summary: Since the beginning of the war in the 24th of February 2022, about 7 million Ukrainians have been recorded as refugees in Europe (UNHCR,2022). Millions more, are internally displaced. This has created a humanitarian crisis, and each European country has reacted differently.

Groups

Russia (1): The Kremlin claims that it is helping refugees escape war zones, and Putin has declared that refugees will receive a 10,000 rouble payment. Russia wants to appear to be treating refugees humanely amid international criticism.

Ukraine (2): Ukraine is grateful to all western nations that have accepted its refugees. However, it accuses Russia of forcing Ukrainians to come to Russia as refugees, and believes that Putin is using them as leverage.

Poland (3): Poland is strongly committed to helping Ukrainian refugees. Most have been brought into private homes and treated as guests. The government has allowed them equal access to the labour market and provided them with generous benefits.

Germany (4): Germany has taken over one million Ukrainian refugees. In the beginning, there was an outpour of support from the populace. Now, the national debate has shifted towards rising gas prices. Germany is looking to possibly sending its refugees to other countries.

Groups

United States (5): The United States has admitted about 100,000 refugees via a new program championed by the Biden administration. The United States is willing to help with financial aid, but reluctant to bring in too many refugees.

France (6): France has admitted many Ukrainians, and is looking for a permanent solution to the crisis via integration methods. This includes teaching refugees French, and helping them better live in French society permanently.

Hungary (7): Hungary has accepted about 800,000 refugees, and its population is committed to aid them. However, the government has implemented an officially neutral policy, and would be reluctant to offend Russia.

Romania (8): Romania has taken in more than a million refugees, but is not able to support all of them independently, it has called for international aid. The Romanian government is looking for a solution that would help lessen the burden they are currently carrying (either through sending refugees to other countries, or receiving more aid).

The Apocalypse Begins

Seemingly overnight, the United States has fallen to the **zombie hords**. As far as you are concerned only you and a small congregation of kids remain alive here in Weston. In order to ensure your survival, you have decided amongst yourselves to divide into groups and develop plans on how to survive. Once presented, the plans will be voted on in order to choose the best course of action. You can use anything within the South Florida area to your advantage, restaurants, supermarkets, infrastructure, homes, etc. Will you **survive?**
